MERN Social Media Web Site (*Wi Chat*)

-Created By :

Wided Boukouba (Full Stack Web Developer)

As we all know that social media platforms like Facebook, Instagram, Twitter, and Whatsapp are gaining importance these days as they are connecting people worldwide with just a click of a button.

If we look at the positive impact of social media, there are various advantages. One of the major advantages of social media is that it is full of information and helps in providing education. For example, children approach social media to get information on the desired topic.

-So my application is composed of five pages:

-Register page

-Login page

-Home page

-Profile page

-Chat page

Register page:

So before login the user should create a new account :

he must enter:

- user name (email)

-First name

-Last name

-Password (equal)

# Login page:

After creating a profile the user can login so he enter his

user name and his password and click login

Home page:

Home page 2:
